 Market Administrator

January 2009

MARKET SUMMARIES FOR DECEMBER 2008

Comparisons to a year ago can be found in the tables on pages 6 and 7.

Pacific Northwest

Producers delivered a total of 472.7 million pounds of milk to the market during December. Daily deliveries averaged 15.2 million pounds, down 26.4 percent from November. An estimated 510 producers delivered milk to the market during the month. Comparisons to November 2008 are biased due to eligible milk not pooled. Daily deliveries per producer averaged 29,902 pounds, down 3.7 percent from November.

Class I producer milk during December totaled 203.7 million pounds, 43.1 percent of total producer receipts. Daily usage averaged 6.6 million pounds, up 7.9 percent from November.

Arizona

Producers delivered a total of 358.5 million pounds of milk to the market during December. Daily deliveries averaged 11.6 million pounds, up 3.3

percent from November. An estimated 102 producers delivered milk to the market during the month. Daily deliveries per producer averaged 113,383 pounds, up 3.3 percent from November.

Class I producer milk during December totaled 120.6 million pounds, 33.7 percent of total producer receipts. Daily usage averaged 3.9 million pounds, up 1.1 percent from November. ♦

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

DECEMBER 2008 CLASS PRICES

December 2008 non-advanced Class Prices were calculated using NASS commodity price surveys from December 6, 13, 20, and 27, 2008. Component prices for the month are \$3.6390 per pound of protein, \$1.2998 per pound of butterfat, *negative* \$0.0269 per pound of other solids, and \$0.6680 per pound of nonfat solids.

December 2008 Class III and IV prices at 3.5% butterfat are \$15.28 and \$10.35 per hundredweight, respectively. The December Class III price compared to November is down \$0.23. The Class III price is \$5.32 lower than in December 2007.

Class II butterfat was announced at \$1.3068 per pound. Class I skim and butterfat and Class II skim prices for December 2008 were announced on November 21, 2008. The Class II price at 3.5% butterfat is \$11.21 for December 2008.

FINAL: NASS COMMODITY PRICES

| | <u>November</u> | <u>December</u> | <u>Change</u> |
|-----------------|-----------------|-----------------|---------------|
| Cheese* | \$1.7511 | \$1.7544 | \$0.0033 |
| Butter | \$1.6356 | \$1.2448 | -\$0.3908 |
| Nonfat Dry Milk | \$0.8701 | \$0.8425 | -\$0.0276 |
| Whey | \$0.1895 | \$0.1730 | -\$0.0165 |

* The weighted average of barrels plus 3 cents and blocks.

Current Commodity Prices -- The NASS survey of cheddar cheese prices showed a decrease in price received for 40-pound blocks and a net decrease for 500-pound barrels. The survey of 40-pound blocks showed a decrease of 53.25 cents between the December 20 and the January 17 surveys, to \$1.2230 per pound. The survey of 500-pound barrels (**adjusted to 38% moisture**) showed a decrease of 44.33 cents to \$1.2630 per pound.

The NASS butter price showed a net decrease of 9.69 cents between the weeks ending December 20 and January 17 from \$1.1741 per pound to \$1.0772 per pound.

The NASS nonfat dry milk showed a net decrease of 1.03 cents since mid-December to \$0.8312 per pound. The average price for NASS whey showed a net decrease of 0.73 cents since mid-December to \$0.1692 per pound. ♦

FEBRUARY'S CLASS I PRICE ANNOUNCEMENT

On January 23, the February 2009 Class I price was announced at \$12.62 for the Pacific Northwest Order and \$13.07 for the Arizona Order. The Class I price was calculated using NASS commodity price surveys from the weeks of January 10 and 17.

The February Class III and IV advance skim prices are \$7.07 and \$5.93 per hundredweight, respectively. The butterfat portion of the Class I mover decreased 28.43 cents from \$1.3983 to \$1.1140 per pound.

The February 2009 Class II skim and nonfat solids prices were also announced on January 23. The skim price is \$6.63 per hundredweight, and the nonfat solids price is \$0.7367 per pound for all Federal orders. ♦

ADVANCED: NASS COMMODITY PRICES FOR CLASS I PRICE CALCULATIONS

| | <u>January</u> | <u>February</u> | <u>Change</u> |
|-----------------|----------------|-----------------|---------------|
| Cheese* | \$1.7989 | \$1.2895 | -\$0.5094 |
| Butter | \$1.3262 | \$1.0914 | -\$0.2348 |
| Nonfat Dry Milk | \$0.8460 | \$0.8333 | -\$0.0127 |
| Whey | \$0.1716 | \$0.1701 | -\$0.0015 |

* The weighted average of barrels plus 3 cents and blocks.

NOMINATION OF TOM VILSACK AS THE NEXT SECRETARY OF AGRICULTURE

On December 17, 2008, U.S. Secretary of Agriculture Ed Schafer commended the nomination of former Iowa governor Tom Vilsack to be the 30th Secretary of Agriculture, citing the former governor's experience in agricultural issues and expressing confidence in Vilsack's ability to effectively continue USDA's success in expanding America's agricultural economy.

"USDA plays an integral role in supporting our agricultural economy and working on behalf of America's farmers and ranchers. I am confident that Tom Vilsack's background and experience will help him continue the progress we have made here."

Schafer concluded his statement by wishing Governor Vilsack well and stating that he believes "he will succeed in continuing to move American agriculture forward." ♦

USDA TERMINATES PROCEEDING ON PROPOSED AMENDMENTS TO ALL MILK ORDERS

On December 24, 2008, the U. S. Department of Agriculture (USDA) announced that it will terminate a proceeding on proposed amendments to modify the formulas used to determine Class I and Class II prices in all Federal milk marketing orders.

In response to a proposal by the National Milk Producers Federation to reconsider formulas for Class I and Class II milk, USDA held a hearing Dec. 11-15, 2006, in Pittsburgh, Pennsylvania. USDA is terminating the proceeding because the evidence presented at the hearing was neither compelling nor provided a basis to make a reasoned decision for recommending adoption or denial of the proposal.

The termination notice was published in the December 24 *Federal Register*. The termination notice and hearing record is available on the Agricultural Marketing Service Dairy Programs website at <http://www.ams.usda.gov/dairy>. Producers and processors with questions about the termination should contact their local milk market administrator's office listed below:

ERS TOOLS AND PUBLICATIONS

The U.S. Department of Agriculture's Economic Research Service (ERS) publishes numerous reports and studies that relate to the economics of food, farming, natural resources and rural America.

A few recent topics may be of interest to dairy farmers: the 2008 Farm Income Forecast; the 2007 State Fact Sheets; and a report on Million-Dollar Farms in the New Century.

The 2008 Farm Income Forecast indicates that net farm income is estimated at \$86.9 billion in 2008 which is 42 percent above the 10-year average of \$61.1 billion. ERS views the "story of 2008" as "twofold," where large increases in the values of crops are offset by rising production costs. The average farm operator household

income is forecast to be \$86,798 for 2008; however, only \$5,900 of that income is from farm receipts with the remainder generated from off-farm income.

ERS' State Fact Sheets include current data on demographics and income, including earnings for farm and farm-related jobs, farm characteristics, farm financial characteristics, top agricultural commodities, top export commodities, and the top counties in agricultural sales. ERS has updated their data base up through 2007.

According to an ERS report, million-dollar farms (those with annual sales of at least \$1million) accounted for about half of the U.S. farm sales in 2002 and by 2006 dominated U.S. production of high-value crops, milk, hogs, poultry, and beef. The report found that most million-dollar farms are family farms, meaning that the farm operator and relatives of the operator own the business.

More details on these and other ERS reports can be found on their website: www.ers.usda.gov.

REQUEST FOR COMMENTS REGARDING PACIFIC NORTHWEST ORDER POOL AND PERFORMANCE STANDARDS

Written comments are invited on a requested investigation of current pooling provisions relating to milk originating outside the Pacific Northwest Marketing Area.

The proposed investigation was requested by means of a letter sent to northwest dairy farmers and interested parties by the Washington State Dairy Federation, a voluntary membership organization representing the state's dairy farmers. The petition requests that the Market Administrator investigate the need for tightening pool and performance standards under the Pacific Northwest Order (FO 124). There were 167 signatures associated with the petition.

Full details of the provisions under consideration will be mailed to handlers, qualified cooperative associations, dairy farmers that are not members of a cooperative, and interested parties and will also be available on the Market Administrator's website:

www.fmmaseattle.com/currentnews.htm. ♦

PRODUCERS AND PRODUCER MILK BY ORDER, STATE, AND COUNTY, NOVEMBER 2008

During the month of November 2008, a total of 769 producers, on a combined basis, were associated with the Pacific Northwest and Arizona Orders. These producers delivered a total of 951.0 million pounds of milk to the markets during the month. The table on page 3 contains the number of producers and milk pooled on the orders. Counties and states with fewer than three producers were combined with adjacent counties. The map on page 4 does not combine counties with fewer than three producers due to the use of size-ranges. ♦
