PROPOSED REVISION IN DIVERSION PERCENTAGE LIMITS FOR THE OPERATOR OF A POOL PLANT OR COOPERATIVE ASSOCIATION TO NONPOOL PLANTS

Written comments were invited on a proposal to decrease the percentage of producer milk that an operator of a pool plant or a cooperative association may divert to a nonpool plant under the terms of the Pacific Northwest Marketing Order.

The proposed action was requested by the Northwest Milk Marketing Federation (NMMF), a

bargaining organization that markets the milk of 96 percent of the dairy farmers historically associated with the Pacific Northwest Order area.

Notice is hereby given that, effective March 1 and continuing through August 2002, an adjustment to the diversion percentages of 7 C.F.R. §1124.13(e)(1) is being considered pursuant in §1124.13(e)(5). The proposed percentages are as follows:
 March through August Not more than 80 percent

The current percentages are: for the months of September through February, 80 percent; and for the months of March through August, 99 percent.

The deadline, as announced on February 5, 2002, for submitting written data, views or arguments with respect to the action being considered was February 20, 2002. ♦

final decision amending the current pooling provisions of the Upper Midwest Federal milk marketing order. This decision is based on testimony and evidence given at a public hearing held June 26-27, 2001, in Bloomington, Minnesota.

This decision would eliminate the ability to simultaneously pool milk on the Upper Midwest milk order when the same milk is already pooled on a State-operated milk order that has marketwide pooling. This decision also establishes a limit on the amount of milk that can be diverted to nonpool plants by pool distributing plants regulated under the order.

USDA will conduct a vote on the amended order to determine producer approval.

Interested persons have 60 days to file comments in response to the tentative decision, which appears in the February 19, 2002, Federal Register. The tentative decision is available on the internet at:
