Market Administrator

AUGUST 2001

MARKET SUMMARIES FOR JULY

Comparisons to year ago can be found in the tables on pages 6 and 7.

Pacific Northwest

Producers delivered a total of 644.0 million pounds of milk to the market during July. Daily deliveries averaged 20.7 million pounds, up 0.1 percent from June. An estimated 1,257 producers delivered milk to the market during the month. Daily deliveries per producer averaged 16,526 pounds, up 0.2 percent from June.

Class I producer milk during July totaled 168.5 million pounds, 26.2 percent of total producer receipts. Daily usage averaged 5.4 million pounds, down 1.6 percent from June.

Arizona-Las Vegas

Producers delivered a total of 232.2 million pounds of milk to the market during July. Daily deliveries averaged 7.5 million pounds, down 10.3 percent from June. An estimated 114 producers delivered milk to the market during the month. Daily deliveries per producer averaged 65,718 pounds,

down 10.3 percent from June.

Class I producer milk during July totaled 73.1 million pounds, 31.5 percent of total producer receipts. Daily usage averaged 2.4 million pounds, down 2.8 percent from June.

Western

Producers delivered a total of 447.4 million pounds of milk to the market during July. Comparisons to the previous month are biased due to eligible milk not pooled in July 2001. Fewer than three handlers did not pool milk; the amount of eligible milk not pooled is restricted. Daily deliveries averaged 14.4 million pounds, down 5.8 percent from June. An estimated 764 producers delivered milk to the market during the month. Daily deliveries per producer averaged 18,889 pounds, up 1.9 percent from June.

Class I producer milk during July totaled 83.8 million pounds, 18.7 percent of total
(Continued On Page 2)

producer receipts. Daily usage averaged 2.7 million pounds, up 1.8 percent from June. ♦

JULY'S CLASS PRICES

July's non-advanced Class Prices were calculated using NASS commodity price surveys from June 30, July 7, 14, 21, and 28. Component prices for the month are \$2.3175 per pound of protein, \$2.1883 per pound of butterfat, \$0.1510 per pound of other solids, and \$0.8234 per pound of nonfat solids.

July's Class III and IV prices at 3.5% butterfat are \$15.46 and \$14.81 per hundredweight, respectively. Class II butterfat was also announced at \$2.1953 per pound. Class I skim and butterfat and Class II skim prices for July were announced on June 22, 2001. The Class II price at 3.5% butterfat is \$15.96 for July.

The July Class III price compared to June is up \$0.44. The Class III price is \$4.80 higher than July 2000 and \$5.66 above the support price.

FINAL: NASS COMMODITY PRICES

	June	July	Change
Cheese*	\$1.6211	\$1.6573	\$0.0362
Butter	\$1.9263	\$1.9094	-\$0.0169
Nonfat Dry Milk	\$1.0148	\$0.9634	-\$0.0514
Whey	\$0.2764	\$0.2862	\$0.0098

* The weighted average of barrels plus 3 cents and blocks. Beginning January 2001, barrels changed from 39% to 38% moisture cheese.

Current Commodity Prices -- The NASS survey of cheddar cheese prices showed an increase in prices received for 40-pound blocks and 500-pound barrels. The survey of 40-pound blocks showed a net increase of 0.52 cents between the July 14 and the August 11 surveys, to \$1.6649 per pound. The survey of 500-pound barrels (**adjusted to 38% moisture**) showed an increase of 2.76 cents to \$1.6443 per pound.

The NASS butter price showed an increase of 5.12 cents between the weeks ending July 14 and August 11 from \$1.9128 per pound to \$1.9640 per pound.

The NASS nonfat dry milk showed a net decrease of 2.98 cents since mid-July to \$0.9404 per pound. The average price for NASS whey showed a net decrease of 0.03 cent since mid-July to \$0.2866 per pound. ♦

SEPTEMBER'S CLASS I PRICE ANNOUNCEMENT

On August 17, the September 2001 Class I price was announced at \$17.46 for the Pacific Northwest and Western Orders, and \$17.91 for the Arizona-Las Vegas Order. The Class I price was calculated using NASS commodity price surveys from the weeks of August 4 and 11.

The September Class III and IV advance skim prices are \$7.99 and \$7.24 per hundredweight, respectively. The Class III skim price set the Class I skim price for the second consecutive month. The butterfat portion of the Class I mover increased 2.20 cents from \$2.2212 to \$2.2432 per pound.

The September 2001 Class II skim and nonfat solids prices were also announced on August 17. The skim price is \$7.94 per hundredweight, and the nonfat solids price is \$0.8822 per pound for all Federal Orders. ♦

ADVANCED: NASS COMMODITY PRICES FOR CLASS I PRICE CALCULATIONS

	August	September	Change
Cheese*	\$1.6521	\$1.6696	\$0.0175
Butter	\$1.9364	\$1.9544	\$0.0180
Nonfat Dry Milk	\$0.9730	\$0.9445	-\$0.0285
Whey	\$0.2874	\$0.2871	-\$0.0003

* The weighted average of barrels plus 3 cents and blocks. Beginning January 2001, barrel cheese prices changed from 39% to 38% moisture cheese.

PROPOSAL TO AMEND THE POOLING PROVISIONS OF THE PACIFIC NORTHWEST FEDERAL MILK ORDER

The Northwest Milk Marketing Federation (NMMF) has requested that the Department of Agriculture (USDA) hold an emergency public hearing to consider proposals to amend the Pacific Northwest milk marketing order. NMMF's proposals would change certain features of F.O. 124's pooling provisions to require a greater degree of association of milk pooled on the Pacific Northwest order with the fluid milk needs of the market.

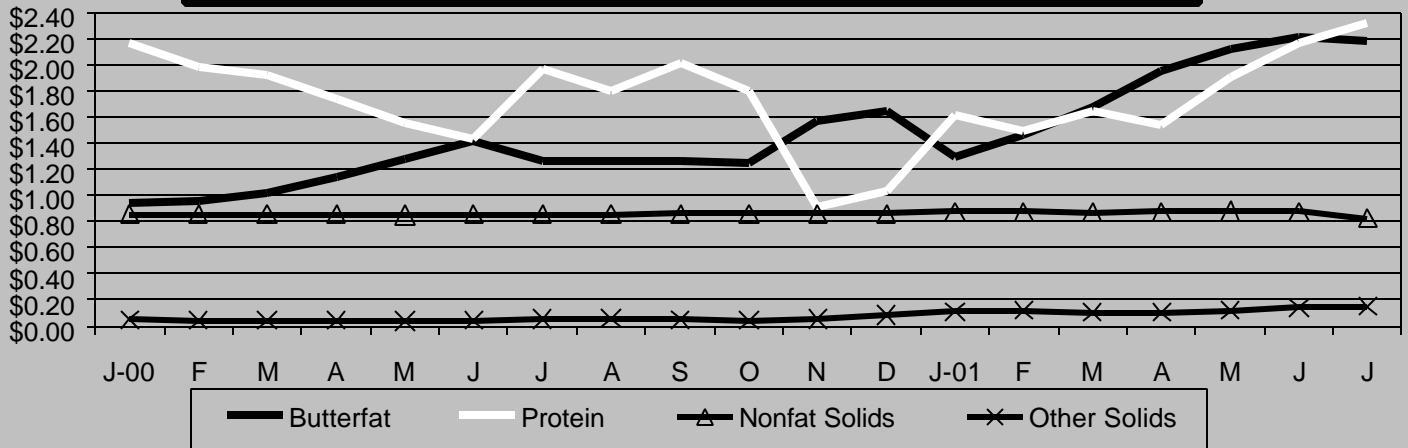

Interested parties may obtain a copy of the entire set of proposals by NMMF from:

(Continued on Page 4)

**NASS Monthly Butter, Weighted Average Cheese, and Nonfat Dry Milk Prices
January 2000 through July 2001**

**Federal Order Butterfat, Protein, Nonfat Solids, and Other Solids Prices
January 2000 through July 2001**

**Federal Order Class III and IV Prices @ 3.5% Butterfat
January 2000 through July 2001**

(Continued From Page 2)

Northwest Milk Marketing Federation
2307 Aspen Cove
Meridian, Idaho 83642
Telephone (208) 887-0834

The NMMF's proposals would amend the Pacific Northwest by:

1. Changing the diversion limits for the months of March through August from 99 percent to 80 percent in Section 1124.13(e)(2).
2. Adding a 6-day per month touch base provision for producer milk in Section 1124.13.
3. Adding a cooperative pool manufacturing plant definition in Section 1124.7.
4. Deleting from the pool supply plant qualifying standards the section that allows a cooperative association that operates a supply plant to include deliveries direct from farms as qualifying shipments-Section 1124.7(c)(2).
5. Deleting from the pool supply plant qualifying standards the section that allows a pool plant operator to include as qualifying shipments milk diverted to pool distributing plants-Section 1124.7(c)(3).
6. Adding a section to allow two or more cooperative pool manufacturing plants to operate as a system in meeting the shipment requirements in Section 1124.7.

The NMMF proposals have not yet been approved for inclusion in a notice of hearing. Before deciding whether a hearing should be held to consider amending the Pacific Northwest order, USDA is providing interested parties an opportunity to submit additional detailed proposals. All proposals must be stated in specific terms so that the issues may be fully considered.

The proposals should be mailed by September 4, 2001, to: Deputy Administrator, USDA/AMS/Dairy Programs, Room 2968-S, P.O. Box 96456, Washington, DC 20090-6456.

Each proposal should be accompanied by a brief but comprehensive statement on the need to amend the Pacific Northwest order and the data and views in support of the suggested amendment.

Any proposals that would extend regulation should be accompanied by the names and addresses of persons who proponents believe would be affected by the proposed extension, and an estimate of the number of additional dairy farmers involved. The statements will be used in deciding what proposals should be considered if a hearing to amend the order is to be held.

If a hearing is called to consider proposals to amend the Pacific Northwest order, only those proposals included in the hearing notice will be heard. However, appropriate modifications of the proposals included in the hearing notice may be considered at the hearing.

Actions under the Federal milk order program are subject to the "Regulatory Flexibility Act." This Act seeks to ensure that, within the statutory authority of a program, the regulatory and informational requirements are tailored to the size and nature of small businesses. For the purpose of the Federal order program, a dairy farm is a "small business" if it has an annual gross revenue of less than \$500,000 resulting in a production guideline of 326,000 pounds per month. A handler is a "small business" if it has fewer than 500 employees. If the plant is part of a larger company operating multiple plants that collectively exceed the 500-employee limit, the plant will be considered a large business even if the local plant has fewer than 500 employees. Interested persons are invited to submit hearing proposals that would carry out the intent of this "Regulatory Flexibility Act."

If USDA concludes that a hearing should be held, all known interested persons will be mailed a copy of the hearing notice. Anyone who desires to present evidence on proposals set forth in the hearing notice will have an opportunity to do so at the hearing.

Once a hearing notice is issued and until the issuance of a final decision, USDA employees involved in the decisional process may not discuss the merits of a proceeding on an ex parte basis with any persons having an interest in the proceeding. For this purpose, the market administrator and his staff are considered to be involved in the decisional process. Thus, it is suggested that any discussions that you may wish to have with USDA personnel regarding hearing proposals be initiated soon. Procedural matters may be discussed at any time.

If you have any questions concerning the filing of proposals or desire a copy of the present order, please contact this office. ♦

**IN-AREA DISPOSITION OF FLUID MILK
PRODUCTS: JANUARY THROUGH JUNE 2001**

In-area route disposition of fluid milk products is the amount of fluid milk products, from all sources, consumed in the selected marketing area. The

tables below show in-area route disposition and the change from a year-ago for the Pacific Northwest, and Western Orders and pool handler route disposition for the Arizona-Las Vegas Order.

In each of the three orders the historic trend of increasing lowfat milk products consumption and decreasing whole milk products consumption was not evident in the numbers below.

Arizona-Las Vegas Order

For the period of January through June 2001, the total disposition of fluid milk products in the marketing area of the Arizona-Las Vegas Order is restricted, due to how information was released previously. The table below for the Arizona-Las Vegas Order is in-area route disposition by product for pool handlers, January through June 2001 and 2000. During the first half of 2001, in-area route disposition by pool handlers decreased 2.8 percent from the same period in 2000. During the first half of 2001, in-area fluid milk disposition of whole milk products increased 1.5 percent, compared to a year earlier and lowfat milk products decreased 4.5 percent.

In-Area Route Disposition By Pool Handlers Arizona-Las Vegas Order (FO131) January through June 2001 vs. 2000

	2001	2000	Change
<u>Whole Milk Products</u>	- million pounds -

Buttermilk & Other 3/	17.2	17.5	-1.16%
Total Low-fat Milk 2/	317.0	333.7	-4.49%
Combined Total 2/	445.6	461.2	-2.84%

* See footnotes below In-Area route Disposition, Western Orders (FO135) table.

Pacific Northwest Order

For the period of January through June 2001, disposition of fluid milk products in the marketing area of the Pacific Northwest Order totaled 1,083.3 million pounds, a 1.4 percent increase from the same period in 2000. During the first half of 2001, in-area fluid milk disposition of whole milk products increased 5.9 percent, compared to a year earlier but lowfat milk products decreased 0.4 percent.

In-Area Route Disposition 1/ Pacific Northwest Order (FO124) January through June 2001 vs. 2000

	2001	2000	Change
<u>Whole Milk Products</u>	- million pounds -

Total Low-fat Milk 2/	886.1	887.3	0.42%
Combined Total 2/	1,083.3	1,074.6	1.37%

* See footnotes below In-Area route Disposition, Western Orders (FO135) table.

Western Order

For the period of January through June 2001, disposition of fluid milk products in the marketing area of the Western Order totaled 438.7 million pounds, a 0.6 percent decrease from the same period in 2000. During the first half of 2001, in-area fluid milk disposition of whole milk products increased 2.9 percent, compared to a year earlier, but lowfat milk products decreased 1.3 percent. ♦

In-Area Route Disposition 1/ Western Order (FO135) January through June 2001 vs. 2000
