# **SPECIAL NOTE:**

## **Announcement of Advanced Prices and Pricing Factors for September 2008**

The manufacturing allowances and butterfat yield factor used to compute the Federal order minimum advance Class I prices and Class II nonfat solids and skim milk prices and pricing factors in this announcement are those published in the Federal Register on December 29, 2006 (71 FR 78333). A complaint to enjoin the implementation of the revised make allowances and butterfat yield factor contained in the Interim Final Rule published in the Federal Register July 31, 2008 (73 FR 44617) was filed in the United States District Court for the District of Columbia.

The effective date of the Interim Final Rule will be postponed to October 1, 2008. The revised manufacturing allowances and butterfat yield factor will be used in computing the October 2008 Federal order minimum advance Class I and Class II prices and pricing factors to be announced on September 19, 2008, unless a court order directs otherwise. The revised manufacturing allowances and butterfat yield factor of the Interim Final Rule will be used to compute minimum Federal order Class III and Class IV prices for October 2008 and in the announcement of advanced prices and pricing factors thereafter.
