**OVERVIEW OF HAULING CHARGES BY
LOCATION AND SIZE-RANGE OF PRODUCTION**

PACIFIC NORTHWEST ORDER

MAY 2020 (with selected comparisons to May of previous years)

The following tables provide an overview of average hauling charges by State and County and size-range of production for the Pacific Northwest (FO 124) Federal Milk Marketing Order.

The data included in these tables comprises all producer milk pooled on the Pacific Northwest Order for the month of May with hauling charges. Hauling charges are based on producer payrolls submitted by handlers to the Market Administrator's office in Bothell, Washington. Several handlers identify a stop charge with, or in lieu of, a hauling charge. Stop charges were converted to a per hundredweight basis and added onto, if any, the normal per hundredweight charge. Note that the producer composition of each May's dataset can change from year to year.

An Index of Tables can be found on page ii.
